Patent Cooperation Treaty: Implementing Legislation and Withdrawal of the Reservation to Chapter II.

On Oct. 9, 1986, the U.S. Senate gave its advice and consent to withdrawal by the United States of its declaration not to be bound by chapter II of the Patent Cooperation Treaty (PCT). Public Law 99-616, that amends title 35, United States Code, to implement U.S. adherence to PCT chapter II was enacted on Nov. 6, 1986.

On Apr. 1, 1987, the President notified the Director General of the World Intellectual Property Organization of the withdrawal of the declaration by the United States. As the withdrawal takes effect three months after the date of notification, the United States will be bound by the provisions of PCT chapter II on July 1, 1987.

A notice of proposed rulemaking concerning PCT chapter II was published in the *Federal Register* on Mar. 4, 1987 (52 Fed. Reg. 6696) and was reprinted in the *Official Gazette* on Mar. 17, 1987, (1076 OG 29). The text of the President's notification and of Public Law 99-616 are reprinted below.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
